

## Entrepreneurship

***Presented By: Sophia Boyd, Owner of Meraki Studio of Beauty - Flint, Michigan***

Sophia Eldridge is the owner and founder of Meraki Studio of Beauty. Meraki is a Greek word meaning putting something of yourself in your work, and that is the energy that is always present within the salon. This platform is used to transform, and uplift while providing jobs and opportunities within the Flint Community.

As a licensed instructor and Advisory Board Member for Transitions School of Cosmetology, Sophia has found many ways to give back. One of her recent endeavors includes the Meraki Studio of Beauty scholarship developed to help students with the cost of tuition and supplies within the beauty industry. She has also hosted back to school giveaways and sponsored local families during the holidays.

Working to offer services that meet the demands of her growing staff and clientele is something that Sophia takes pride in. Surviving the ever-changing market requires consistency and dedication. All of this done through constant research and the ability to adapt to change.
